Agenda Topics

- Short Presentation of both Projects
- Implementation specifications and details

- Identification of synergies & mutual support actions
- Next steps

#### Key Issues Raised

Given that both projects involve the usage of a mobile app (and website) to report environmental crime cases, LIFE NATURA THEMIS representatives discussed with LIFE PROWhIBIT representatives a series of issues that they have faced and should be taken into consideration by LIFE PROWhIBIT, such as:

- Clearing out of cases received through the mobile app proved to be a daunting task (LIFE NATURA THEMIS has been receiving non-relevant cases).
- They faced difficulties with the classification of environmental crime cases and assignment of their handling to the right authorities, based on how serious each case was.
- Authorities' response time was not satisfactory.
- LIFE NATURA THEMIS is facing difficulties in resolving the after-LIFE maintenance of their mobile app, so as to keep it operating after the project's completion.

#### Key Actions Decided

- Collaboration on communications and dissemination activities.
- Exploration of whether LIFE NATURA THEMIS' mobile app can be utilized by the LIFE PROWhIBIT project, as a transition stage until the nation-wide mobile app of LIFE PROWhIBIT is ready.
- Communication between the Lawyers' Associations in Crete that partnered with LIFE NATURA THEMIS project and the Project Coordinator of LIFE PROWhIBIT, in order to explore the process of obtaining data on related criminal cases.
- Signing of an MoU on the collaboration of the two projects.

**AND**

The **General Secretariat of Environment and Water of the Hellenic Ministry of Environment and Energy**, Mesogeion Avenue 119, 115 26, Athens, implementing the project **LIFE18/GIE/GR/000899**, “LIFE PROWHIBIT - Prevent of Waste Crime by Intelligence Based Inspections” represented by Prof. Konstantinos Aravossis, Secretary General of Natural Environment & Water.

### PREAMBLE

Acting for the protection of natural resources in Natura 2000 sites and the awareness rising on wildlife prosecution and remedying in Natura 2000 sites, we declare the wish to cooperate in the implementation of projects co-financed by the European Commission under the Financial Instrument of LIFE. This Declaration confirms the willingness to realize the partnership, with the following objectives:

1. Provide support, exchange of experiences during the implementation of projects coordinated by Partners, in issues connected with administrative, financial, nature conservation on Natura 2000 sites and social communication tasks.
2. Partners are willing to cooperate on the basis of their experience, to achieve aim indicated in the point 1.
3. As the part of the agreement, if necessary, meetings will be organized to exchange partner’s experiences.

<b>Medium</b>	E-presence (recording is not available on the platform)

Agenda Topics

- Short Presentation of both Projects
- Implementation specifications and details
- Identification of synergies & mutual support actions
- Next steps

#### Key Issues Raised

- Type of waste that each project deals with and goals of each project related to waste.
- Description of Green Spots developed by LIFE-IP CEI-Greece project and identification of their relation to waste crime (i.e., whatever is not processed at the Green Spot can be considered a waste crime).
- General description of the platform that will be developed for donation and redistribution of unused food.
- Identification of overlap areas and synergies among the two projects.
- Technical issues related to the organization of digital conferences and info days (due to COVID-19 restrictions).

#### Key Actions Decided

- Regular communication & close collaboration on dissemination activities.
- Further exchange of relevant information via emails.
- Organization of a joint info day to communicate and explain to the public how the two issues addressed by the two projects are interconnected: “any case where waste that should be handled in the circular economy cycle, is treated differently, is a potential waste crime case”.
- Exchange of reports by experts.
- Organization of a presentation of the LIFE PROWhIBIT project to the General Directorate of Waste Management.
